

## PARACAMP CURES

### RHEUMATISM.

Cost Nothing If It Fails.

Any honest person who suffers with Rheumatism is authorized to go to their druggist today and get a bottle of Paracamp, use as directed, and if it fails to do exactly what we claim, go back to their druggist and get their money. Paracamp is recommended as a modern scientific treatment for all Rheumatic Swellings and Neuralgic troubles. It relieves on Nature's plan. That is when applied it opens the pores, penetrates directly to the seat of the ailment, soothing the inflamed skin, muscles and joints, reducing the swelling by removing the congestion, drawing out the fever and inflammation by inducing sweating. It sweats the disease out of the body through the pores of the skin. This is why Paracamp is superior to the many internal strong, drastic drugs that upset the stomach, shatter the nerves, and undermine the general health. Our guarantee is made to convince you of our faith in Paracamp. We have, of course, tested its merits thoroughly in many and various cases. We know therefore exactly what it will do. So don't hesitate, but get a bottle of Paracamp today, and after two or three applications you will be convinced that we claim only for Paracamp exactly what it will do.

Paracamp is sold only in 25 cent, 50 cent and \$1.00 bottles. The larger sizes are cheaper for family use. Write for book of testimonials. The Paracamp Company, Louisville Ky., U. S. A.

### YOUNG WITNESS COME.

Police Looking For Relatives of Nan Patterson.

New York, June 11.—Central office detectives and the police of the Leonard street station are trying to find Morgan Smith, the brother-in-law of Nan Patterson, the actress who was in the cab with Caesar Young when he was mysteriously shot in West Broadway, near Franklin street, on Saturday morning last. A body attachment for Smith was issued by Judge Newburger in part one of general sessions, at the instance of District Attorney Jerome, after it was learned that Smith and his wife, who is the Patterson woman's sister, had suddenly left the St. Paul hotel.

It was said at the St. Paul that the Morgan Smiths had left the hotel on Wednesday and had not returned. The did not notify the management that they intended to leave nor did they remove their effects. When it became apparent to the management that they might not return their belongings were placed in the trunks found in the rooms and removed to that portion of the hotel reserved for storage. They now await such disposition as the Smiths may order.

The grand jury adjourned for the day without finding an indictment against Nan Patterson, but will take up the case again on Monday.

### Put Girl's Heart in Place.

Saratoga, Pa., June 11.—Thirteen-year-old Annie Riley of Dickinson City, near here, is recovering from an operation by which her heart was restored to its natural place on the left side of her body after being out of place for more than a year. To bring about the restoration Drs. C. E. Thomson and H. D. Gardner found it necessary to remove four ribs and parts of four others.

### Satelli Invited to Ireland.

Rome, June 11.—Cardinal Satelli, who is now in the United States, has been invited to attend the consecration of the Cathedral of Armagh, in the north or Ireland, July 24. In the south of Ireland the cardinal will be the guest of the archbishop of Cashel and also of Father James Ryan, president of Thurles college, near Cashel.

## WAR ON UNION MEN

Cripple Creek Employers Sign Iron Clad Agreement.

### TO DEPORT MORE MINERS.

All the Five Hundred Employees of the Portland Mine Must Give Up Their Cards or Leave the District—Work Resumed at Nonunion Mines.

Cripple Creek, Colo., June 11.—The excitement throughout this district is gradually subsiding. Work has been resumed at mines employing nonunion men which had been closed since Monday, the Stratton Independence being the first to reopen. The Portland mine remains closed by order of General Bell, and its 500 employees will be compelled to abandon the union or leave the district.

Employers in all branches of business in this city, without an exception so far as known, have signed the agreement proposed by the Citizens' alliance "not to employ help of any kind that is in any way connected with the District Trades assembly or the State Federation of Labor, the American Labor union or the Western Federation of Miners or any kindred organization." This agreement of the proprietors has caused consternation among the clerks and employees in shops and stores who are members of the retail clerks', barbers', carpenters', bartenders', cooks' and other trade unions, as all will have to resign to hold their positions.

### Individual Unions to Be Tolerated.

The present scale of wages will prevail, and individual unions will be tolerated, it is conceded, if they are conducted on conservative lines and do not give aid, directly or indirectly, to the Western Federation of Miners.

This war against unions is to be extended, the organizers of the movement say, to every city and town in the district.

The authorities now in control declare that there has not for months been a time when life and property here were as safe as they are today. The streets are quiet, and those of the lawless element who have not fled have been imprisoned. No further disturbance is expected. The search for agitators and criminals, however, is still being prosecuted.

Many prisoners arrested have been released after the military provost marshal or the citizens' court of investigation had given a word of warning.

### Cost of Colorado's Strikes.

Denver, June 11.—The cost of the various strikes in Colorado during the past sixteen months is estimated at \$23,036,000. Of this amount the state has had to pay \$636,000 for maintaining troops in the field, and the loss to strikers and others directly affected in wages, etc., and to the employers in loss of business is placed at \$22,400,000. With the exception of a few brief periods the national guard has been on duty at one point or another in the state since early in 1903.

### Cronje to Wed in St. Louis.

St. Louis, June 11.—At the age of sixty-seven, having eight married sons and daughters, General J. M. Cronje, the United Boer leader, is to wed again in St. Louis. The old hero's nuptials at the Boer English camp, about July 1, is to be one of the features of the world's fair season. The general is to marry Mrs. Johanna Sterzel, a comely widow of the Boer contingent of the military expedition. Mrs. Sterzel is forty-nine years old and has three sons and three daughters. She was the wife of another prominent Boer leader, General Moritz Sterzel of Johannesburg.

### Striking Italians Riot.

New York, June 11.—The ill feeling at the Ward line pier, No. 10, East river, which has been conspicuous for some days, owing to a strike of Italian firemen and the replacing of them by nonunion Italians, has led to a shooting affair in which about a dozen shots were fired. No one was hurt. There were two arrests.

## Cures and Prevents Disease

The cause of ninety per cent of all disease is a faulty digestive and drainage system—the stomach, liver, kidneys and bowels. Let one of these organs become clogged or inoperative, there remains in the system many poisons that will, in time, breed disease, difficult to correct. One should never allow even a temporary stoppage of any one of these organs—they should be kept constantly in perfect working order.

## SEVEN BARKS

Is positively the ideal corrective of all internal ailments. It is not a patent medicine, but an honest, vegetable preparation, extracted from the bark of a species of the Hydrangea plant. Its curative properties are numerous. It is a mild cathartic—an alternative—diuretic, soothing, healing and tonic. An occasional dose will keep the whole system in perfect condition and will act as a safeguard against disease.

Seven Barks has been on the American market for over thirty-five years. Its distributors have reams of high-praising letters from people in every walk of life. Thousands of families are never without a bottle. The oldest friends are our best.

### Test it for Yourself

Ask your druggist for a 50-cent bottle, and if it does not do all that is claimed, take the empty or partly consumed bottle back and get your money. One New York City druggist sold 750 bottles on this basis before one dissatisfied purchaser asked for the return of his money.

### BEARS TERMS TO BANDIT.

Sultan's Representative Sends Own Son to Raisuli.

Paris, June 11.—The foreign office has received lengthy advices from the French minister at Tangier. He says Mohammed el Torres, the sultan's representative at Tangier, has chosen his own son, who bears the same name as his father, to proceed to the mountain retreat of Raisuli, the bandit chief, and present the final terms to secure the release of Messrs. Perdicaris and Varley.

The son already has departed on his mission. The journey will take a day or two. The officials expect a successful outcome. They say Mohammed's choice of his son shows the sincerity of Morocco's efforts. The minister pays a high tribute to the cautious reserve and constant courtesy observed by both the American and British admirals, which is construed as indicating that there is no likelihood of precipitate naval action.

It is reported that Marins Minister Pelletan is communicating with Vicer Admiral Igon, at Toulon, relative to the possible eventuality of sending one of two French warships to Morocco. The report is not yet confirmed, and probably only inquiry may have been made as to what ships are available if an emergency arises, which the officials do not expect.

### Captives' Position Perilous.

London, June 11.—A. J. Nathan of Pennsylvania, long a resident of Tangier and who has just arrived in London, describes the situation in Morocco generally as being serious. He considers that Messrs. Perdicaris and Varley are in the gravest danger. As Raisuli is simply a common bandit, the tribesmen are quite beyond his control. If they thought Raisuli was no longer a bandit they would themselves attack the captives. The latter are far in the interior of the province of Belharas, in the vicinity of Mohab Abi Selom, the most sacred shrine in north Morocco. It is certain, Mr. Nathan says, that if marines attempted to march into that district the prisoners would be killed.

### M'CORMICK WELL TREATED.

State Department Hasn't Heard of His Being Ostracized by Russians.

Washington, June 11.—No intimation has been received at the state department that Ambassador McCormick has any intention of resigning his high office on account of the alleged anti-American feeling in St. Petersburg. On the contrary nearly all the reports indicate that he has been treated with the greatest courtesy and consideration by the Russian officials, and socially he is extremely popular.

However, Mr. McCormick has been far from well physically for many months, suffering from a gony affection that has led his physicians to insist upon his visit to some of the thermal springs in Austria and, as he is entitled to a liberal leave of absence, it is expected that he will avail himself of this and go either to Austria or to the United States to recuperate.

### Joint Ultimatum to Turkey.

Paris, June 11.—Foreign Minister Delcasse has been informed from Constantinople that the British, French and Russian ambassadors there reached a joint agreement to present an energetic representation to the grand vizier to put a stop to the Armenian atrocities. This action follows the official investigation confirming that a number of bloody combats have occurred, that villages have been destroyed and that people have been killed in Armenia.

### Kongo State Ruffled.

Brussels, June 11.—It is understood that the Kongo state government considers the British proposal of a special commission to inquire into its administration as unacceptable and contrary to its dignity and independence.

## KUROKI ON THE MARCH

Japanese Rout the Russians in Four Engagements.

### KUROPATKIN'S LOSS HEAVY.

Seventy at Haimuchi—Between Seventy and Eighty at Chanchiaheih. Four Thousand of Czar's Forces, With Six Guns, Driven Back From Sinyen.

Tokyo, June 11.—General Kuroki reports that a detachment of Japanese troops on Tuesday routed a battalion of Russian infantry, with two guns, at Haimuchi, the Japanese losing three men killed and twenty-four wounded. The Japanese captured two officers and five men. The Russians left on the field twenty-three men dead or wounded and probably lost seventy men.

A Japanese detachment dispatched in the direction of Tungyuanpi repulsed sixty or seventy of the enemy's infantry at Linchafai Monday, and on Tuesday encountered six companies of Russian infantry and 300 cavalry at Chanchiaheih. After two hours' engagement the Japanese drove the Russians off in the direction of Tungyuanpi. The Russian casualties were seventy or eighty men killed or wounded. The Japanese lost four men killed and sixteen wounded.

On Wednesday a Japanese detachment co-operating with another Japanese detachment from the force landed at Takushan encountered a Russian force of 4,000 cavalry, with six guns, near Sinyen and drove them back toward Chinchang and Kalehow, losing three men killed and two officers and twenty-eight men wounded.

### FORTIFYING ST. PETERSBURG

Russian Precautions Against Japanese Attack on Their Capital.

St. Petersburg, June 11.—Remote as now appears the chance that the Japanese fleet will ever be in a position to venture up the Baltic and make a demonstration against the Russian capital or that a European power will be drawn into the war, Russia evidently is making nothing for granted. The possibility of the fall of Port Arthur

of a disaster to the Baltic squadron after the latter sails for the far east has been considered, and no precaution will be omitted to protect St. Petersburg against attack.

Shore batteries have been constructed near Oranienbaum, on the gulf of Cronstadt, nineteen miles from St. Petersburg and Sestroretsk, a mile from the gulf Finland, on the Sestra river, and seventeen miles from St. Petersburg and Sestroretsk, a distance against landings, as it is believed the forts are able to stop the advance of a hostile fleet. The approaches to Cronstadt are also being mined, and merchant ships are being forbidden to enter the port without a pilot to conduct them through the mine fields.

### Russians Think Jap Activity a Foet.

Liaoyang, June 11.—The suddenly increased Japanese activity in the neighborhood of Sinyen, west of Fengwangcheng, is believed to be rather in the nature of feints to distract attention from Port Arthur, whither it is believed more than half the enemy's forces have gone, than a serious forward movement. Kuroki's bombardment of the coast in the vicinity of Kalehow probably had the same end in view, but the developments are closely watched at headquarters. General Kuropatkin is in a position to act promptly in the event of developments of real importance.

### Kuropatkin to Move Soon.

Liaoyang, June 11.—General Kuropatkin is expected to re-enforce himself, and as soon as they arrive he will advance from Liaoyang, and important developments are expected. Persistent reports are in circulation of a battle at Port Arthur, that place being attacked both by land and sea. Nothing definite is known, however, except that an attack made by the Japanese did not succeed.

### Russian Force at Cenyong.

Seoul, June 11.—A force of Russian troops, the strength of which is not known, is reported to have arrived at Cenyong and to be moving west.

### Throws Her Baby to Death.

New York, June 11.—While Bremer was climbing to her rescue on scullion ladders Mrs. Benjamin Apfel of 10 Stanton street, frantic with fear lest she and her four-month-old child should be roasted alive, threw her infant from a third story window of a big tenement. The little body struck the sidewalk, and the child was killed instantly in full sight of the firemen and hundreds of people who had gathered to witness the fire. The tragedy caused intense excitement.

### Cloudburst in Kansas.

Emporia, Kan., June 11.—A cloudburst in Chase and western Lyon counties has sent the Cottonwood river up several feet and it is still rising. A repetition of the serious flood of last week, has, it is feared, begun. The water has reached the railroad tracks.

### FOUR FREE TRIPS

### TO WORLD'S FAIR

Daily Times Will Send Popular Persons to Exposition—Ten Days' Trip and Expenses Paid.

The Louisiana Purchase Exposition, or World's Fair, at St. Louis this year, will be in all respects the greatest enterprise of the kind ever undertaken. In point of floor space in the exhibit palaces it will be more than ten times as large as the Pan-American Exposition at Buffalo in 1901, twice as large as the World's Columbian Exposition at Chicago in 1893, and three times as large as the last Paris Exposition.

Indications point to an enormous attendance from all parts of the country. Everybody wants to see the greatest World's Fair ever held.

The Barre Daily Times invites four of its most popular readers (to be determined by vote) to attend the St. Louis Exposition as the guests of this newspaper.

The candidates for these free trips to St. Louis will be classified thus:

Class 1.—The most popular resident of Barre city.

Class 2.—The most popular resident of Barre town.

Class 3.—The most popular resident of Orange county.

Class 4.—The most popular resident of Washington county, outside of Barre city and town.

These persons will be selected by the readers of the Times. The balloting will open immediately and will continue until midnight of Friday, July 1. The winners will be announced in the issue of Tuesday, July 5.

### Boer Patriot a Kansas Farmer.

General William Fouché, Boer patriot, is now a Kansas farmer. He has purchased a quarter section of land near Geneseo, in Ellsworth county, and took possession of the property a few days ago, says the Topeka Capital. The purchase by General Fouché is said to mean that a Boer colony will be located there. General Fouché is in correspondence with former companions in arms who are still in South Africa and who have been waiting for General Fouché to find a suitable location before they came to America with their families.

### The Goddess Pele.

Pele, the dreadful goddess of volcanic fire, first made her abode among the Hawaiian Islands in company with many furious brothers and sisters ages ago. Scholars suppose that Pele and the wind gods were introduced into the mythology of Hawaii at the time of the second migration of Polynesians.
